

NORTHERN LIGHTS EXPEDITION TO THE FELL TOP

Accessible snowmobile safari to the top of Suomutunturi offers you an excellent opportunity to explore Lapland's wintery nature. This guided tour suits well for spotting the Northern Lights, as well as experiencing the blue hour. Our trained guides will take good care of the participants and will prepare coffee over the campfire in a traditional Finnish style. At the fell top, there is also time to independently explore the surrounding nature and to experience its silence. The landscapes also provide the perfect setting for photography.
